**Cohort based
Learning**

**Interactive
Sessions**

**Networking
Sessions**

**Book
Discussion Sessions**

**Live Projects
to Work On**

**Case Study
Sessions**

What our last batch has to say !

Dhruvang Arya

I liked the experiential learning here. It was very interesting and interactive than routine classes. The best part was when she made us think, instead of just sitting and listening which turned out to be very helpful. This was my first ever class on entrepreneurship and she made it easy for me.

Axit Rangholiya

There is a big and positive change in the way I present my venture idea. ASHINE Startup School helped me to better understand the elements of the business plan and last week's portion, mainly creating an effective B-plan. I have much clarity on how to go for the ideal pitching round and the presentations in the sessions made it really easy for me.

Uttkarsh Sachan

The sessions were really good. Everything was explained in great detail and the language was very easy to understand. The course was well structured, real life case studies were taught and enough room was provided for doubts. Also, extra resources were provided on WhatsApp group. Overall it was a great experience.

Prashant Dodiya

I really loved the course, it actually gave the knowledge, the environment and the ecosystem needed for an Entrepreneur. The particularly like the live session conducted by the mentor. It cleared most of the concepts and the processes. I enjoyed this course, it really helped.
